## Profile

---

As a **passionate** Frontend Developer with a strong background in **team leadership** and a **diverse educational journey**, I bring a rare combination of **analytical skills** and **creative thinking** to the IT industry.

My career began in the humanities and social sciences, which endowed me with **strong communication** and **analytical abilities**.

However, my enthusiasm for exact sciences and technology led me to **pursue intensive training** in **frontend development**.

At CAIXA ECONÔMICA FEDERAL, I gained valuable leadership experience as a **Portfolio Manager** while simultaneously expanding my **technical skills**.

I am now ready to apply and further develop my expertise in a dynamic and **innovative environment**, actively contributing to the development of forward-looking **digital solutions**.
